

System Administrators,

- Do not apply the same fix twice. Always check the program to be sure that you need the change.
- Check the Creation-Date on your latest diskette. Based on that date, only apply the fixes that have been prepared since then.
- The Delta Symbol represents spaces when they are critical: **ΔΔΔ**.
- Zeroes have a dot in the center as follows: **000000**.

TECH NOTE # 1223, 11/15/06 **LOW-priority**.

DESCRIPTION: Posting a SIF is recorded in the Credit Bureau History without special comment code 'AU'.
