

System Administrators,

- Do not apply the same fix twice. Always check the program to be sure that you need the change.
- Check the Creation-Date on your latest diskette. Based on that date, only apply the fixes that have been prepared since then.
- The Delta Symbol represents spaces when they are critical: **DDD**.
- Zeroes have a dot in the center as follows: **000000**.

TECH NOTE # 1322, 02/16/10 LOW-priority.
DESCRIPTION: UPDATE FACILITY - Update by SSN not able to access debtor.

TO CHECK: >LOAD "CAZ0913P"; LIST 7211

BEFORE:

```
07211 IF DRIVE$(1,2)="44" THEN LET G2=NUM(GET$,ERR=07212), GET$=STR(GE: "####
07211:##"); REM this line when numbers have leading zeros or are left adjust
